November 1999

Volume 4 Issue 6

Another year is soon to be history,

The next newsletter that we publish will be in a new century and millenium. We have come a long way in just a few short years, but but the Association has many goals not yet achieved. The Memorial Scholarship fund is growing, but realistically we still have a few years to go before it is completely funded. For those brothers that have sent donations to help fund this scholarship, we thank you. We have grown in size as a group, and being recognized on the National level is a great honor. We need to continue our growth in order to become a stronger and more effective association.

The Alpha Sigma collegiate chapter is one of the largest, most dedicated, and motivated student organizations on the University of Illinois campus. They have 32 eager pledges this year. They all seem to have endless energy even though the curriculum at the U of I can strain one's brain to the limits. The actives are very appreciative of the Alumni Association support. Every year we have given money or donated our time to help support professional and community projects. We have given annually to defer travel expenses to "The Leadership Development Seminar", and or the "Grand Council". Our chapter has been well represented at these nationally sponsored events. With your continued support, all of our goals as an association will be attained in the next millenium.
